

# UNUSUAL BELIEFS

## *2 Day Workshop*

**Monday, April 2nd & Tuesday, April 3rd, 930am to 430pm  
@ the West Springfield Public Library**

Participants will look at how to support someone who has unusual beliefs or what often gets called 'paranoia.' It will focus on exploring a person's belief system to understand it from their perspective, and how to reduce any negative impact on quality of life without trying to take away what's meaningful or useful. Participants will also learn how the three stages of voice hearing apply differently with experiences of this nature, and will explore how to decode beliefs to build understanding.

**\$50 Registration Fee. Scholarships Available. Register at:**
